The grand jury after the careful examination of the fuss at Pleasant Hill, which resulted in the death of Parker and the wounding of Hughes, failed to elicit any evidence to show who did the shooting. They indicted Mattie Sneed for keeping a bawdy house, an Luella Sneed and Annie Adams for vagrancy. Thus ends the chapter of another horror, which is not only a disgrace to the county, but to all engaged in it.—**Cass Co. Democrat.**

Death of Patrick Murphey.

DIED, at the home of his mother Mrs. Cathrine Murphey, in the south part of this city, Sunday, Sept. 21, 1890, at 4 o'clock, Patrick Murphey, aged 31 years.

He had been sick for the past five months and his death was caused from quick consumption, superinduced by a severe attack of lagrippe. Patrick Murphey was one of Bates county's most highly respected and noble young men, and his many friends will join his aged parent, brother and sisters in mourning his early death. He was a native of Ireland and came to the United States with his parents at the close of the war. His father, however, was not permitted to see "the land of the free and the home of the brave" as he died aboard the ship on which the family had taken passage. In the year 1868 or '69 Mrs. Murphey and family immigrated to this country and located on a fine farm in Lone Oak township, where she has since resided and where Patrick grew to manhood. He was a devoted son and did much to assist his mother in managing the farm. In politics, he was an uncompromising democrat and always took an active part with his party in the elections, both county, state and national. In religion he was a Catholic, and the funeral which took place Tuesday evening at 2 o'clock, Father Shea, of Rich Hill, officiating were very solemn and effecting. The remains were then conveyed to Oak Hill cemetery and laid to rest. The Times, with the many friends of the family, extends sincerest sympathy to the bereaved family.

Wade Worked Up.

Washington, D. C., Sept. 22.—"Farmer" Wade is in a terrible stew. He has been receiving telegrams from his district urging him to return to Missouri at once, and he had all his plans made to leave last Saturday night, but the republican managers would not consent to have him depart when his vote was sadly needed to help make a quorum.

Things look as uncertain now as they did on Saturday and Farmer Wade hardly knows what to do. He declared to-day that he would be compelled to depart this evening, but party pressure was put on him and he will have to tarry here one day longer anyhow. He is afraid that while he is away from the Ozark country his opponent will fix things so that he will fail to secure his reelection.

Marvelous Endurance. 1

The vast amount of labor performed by the heart in keeping all portions of the body supplied with blood is not generally known. It beats 100,000 times, and forces the blood at the rate of 168 miles a day, which is 3,000,000,000 times and 5,150,880 miles in a life time. No wonder there are so many heart failures. The first symptoms are shortness of breath when exercising, pain in the side or stomach, fluttering, choking in throat, oppression, then follow weak, hungry or smothering spells, swollen ankles, etc. Dr. Franklin Miles' New Heart Cure is the only reliable remedy. Sold by H. L. Tucker.

RECTOR.

W. R. Walton of Richland township one of the leading and substantial farmers and cattle dealers of Vernon was in Nevada Tuesday. In talking about the corn crop of this county and the probably number of cattle that would be fed for market this fall he said. "I intend to feed from 150 to 200 head, placing them on full feed about Christmas. Blakey Gordon, I believe will feed a car load. I don't think corn will be worth more over 25 or 30 cents per bushel. On account of the light corn crop there will not be many cattle fed for market. The trouble too, is that the men who have corn don't want to price it. There are thousands upon thousands of bushels of corn in the county." Concerning the crop of this season Mr. Walton thought there would be a strong average crop. He mentioned that in the northwestern part of the county there was a scope of country six miles square that the corn would average 40 bushels to the acre. Mr. Walton has on his farm 1500 acres of tame grass.—**Nevada Democrat.**

Another jail delivery has been reported from Vernon county, Thursday night, the four prisoners confined in the jail at Nevada effected their escape by sawing two iron bars in two which confined them in the cell. Then a large rock on the north side of the building was removed and the prisoners decamped. The Nevada Mail says: There were four prisoners in the jail as follows: H. C. Clark, charged with a nameless crime upon the person of his eleven-year-old daughter; Dick Osborn, serving a jail sentence for burglary; McClelland Faber, of Ft. Scott, serving a thirty days' sentence for terrorizing the denizens of Deerfield by promiscuous shooting on the streets of that village during the month of August; and Bert Campbell, charged with forgery.
